

**El.E.De** Gestaltung: Ingo Maurer 2001

Edelstahl, LED-Platine, Metall. 230/125 Volt. 204 LEDs. 20 Watt. Elektronischer Transformator *Touch Tronic*, 24 Volt DC. Das Kugelgelenk ermöglicht Drehen und Neigen in jede Richtung.

Stainless steel, LED circuit board, metal. 230/125 volts. 204 LEDs. 20 watts. Electronic *Touch Tronic* transformer-sensor-dimmer 24 volts DC. The ball-and-socket joint enables the lamp to be tilted and swivelled in any direction.

Acier spécial, circuit imprimé LED, métal. 230/125 volts. 204 LEDs. 20 watts. Transformateur électronique *Touch Tronic*, 24 volts DC. Une articulation à rotule permet de tourner et d'incliner la lampe en toute direction.

Acciaio inossidabile, circuito stampato LED, metallo. 230/125 volt. 204 LED. 20 watt. Trasformatore elettronico *Touch Tronic*, 24 volt DC. Facoltà di rotazione e inclinazione in ogni direzione mediante un giunto sferico.
