### *Cleaning Instructions*

To clean Raimond Moooi recommends using a feather duster first to remove any dust particles. If a stain persists Moooi recommends using a soft damp cloth to gently rub the stained area. Moooi strongly recommends making sure the lamp is not connected to the main power supply whilst cleaning is in progress. Moooi recommends always reading the label of any cleaning product you wish to use on or near any item from the Moooi collection. For further information on how to clean this product please contact your nearest Moooi agent or dealer which can be located via our website.
