

Fiber Soft Armchair Tube Base

“One of the foremost principles of design is to create simple and well-functioning, almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Soft Armchair to do just that. The chair’s sculptural language, paired with a wide and ultra-soft seat, refuses to compromise on comfort and invites the user to be seated for hours on end. With soft wadding and upholstery, the Fiber Soft Armchair enhances the idea of grand comfort. The chair’s inner shell is made using recycled plastic for a conscious and innovative perspective on materials.”

Description

A sculptural yet distinctly ergonomic seat makes the Fiber Soft Armchair ideal anywhere we spend an extended time seated. Its interior shell made of 100 % recycled plastic is clad with soft wadding and upholstery to elevate a supreme sense of ease and embrace. The spacious, ultra soft seat and smooth curves of Fiber Soft Armchair provide maximum comfort in public spaces and the home alike.

Material

Shell from 100% recycled plastic mixed with strength-improving additives. The recycled plastic comes from post-consumer waste.

Seat, back and armrest is clad with multiple layers of foam and wadding and finished with textile, imitation leather or leather upholstery. Leather from selected premium leather suppliers.

Tube base in powder coated steel. Plastic glides.

Fiber Soft Armchair Tube Base

Cleaning & Care

Textile: For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing with a lint-free cloth or sponge wrung out in clean warm water. If necessary, clean by dabbing with soapy water made with a little dish soap. Finally, dab the surface with clean water. We highly recommend that you go to kvadrat.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather: Clean with lukewarm PH-neutral soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterwards.

Leather: As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time.

Refine Leather, Easy Leather and Endure Leather: Clean leather with a dry cloth regularly. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid any chemical products, such as saddle soap, leather cleaners or household products.

Base: Clean with a moist cloth. If necessary, use a little dish soap on the cloth.
