BODUM® Product Information

## PRODUCT DESCRIPTION – THE STORY

The insulating quality of the double wall glasses doesn't just keep hot drinks hot for a longer period of time, it also keeps cold drinks cold longer. Another nice thing about them – there is no condensation water when you serve cold drinks, therefore no messy rings on your table. And by the way, they're great for ice cream as well. Double wall glasses are truly multifunctional. They are made from borosilicate glass and are dishwasher safe.
