

NEU 10

Design by HAY

Neu's ergonomically moulded shell combined with its cast swivel base results in a perfectly defined profile. The durable, finely-grained plastic adds textural interest, while the rim detail gives the design structure and character. In the upholstered version a delicate stitching line runs across the seat and the piping detail accentuates the chair's raised rim. Its functional and comfortable construction and flexible design options makes it the perfect choice for offices or dining rooms.

PRODUCT DETAILS

- / Variability of shell colours and base finishes.
- / Suitable for a wide variety of private and public environments.
- / Qualified for contract use.
- / Available with plastic shell and swivel base (Neu 10) and full upholstery in a large selection of fabrics and leathers.
- / The chair is also available with solid oak legs (Neu 13) in the same colours as Neu 10.

HAY

MATERIAL

SHELL / Injection moulded solid-coloured polypropylene shell. The shell thickness narrows from 15 mm to 7 mm, and features a 20 mm rim all the way round.

BASE / 4 star swivel base in cast aluminium.
