A contemporary sofa, understated yet statement-making, Offset is the result of research into 'balance' by Norm Architects. The studio wanted to create a sofa as simply as possible while embracing a set of paradoxes: making it substantial yet delicate in appearance, architectural yet inviting and homey. In the studio, the designers experimented with offsetting – playing with proportions, narrow armrests versus a thick generous seat, supported by four stubby metal legs. The clean-lined boxy shape is inspired by minimalist art, gently softened for a welcoming expression and maximised for comfort.

About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
