# Copenhagen Tray Table

Is it a tray or a table? The versatile, multiple-use Copenhagen Tray Table combines the functionality of a traditional tray with the elegance of a side table. Designed by Norm Architects for use in the home, office, even the garden, the table is portable and slender enough to slot stylishly into any corner of the room. Constructed from lightweight powder-coated steel with handles to be easily moved, use Copenhagen Tray Table as a storage solution in the kitchen to display dinnerware. Put it to work as modern drinks trolley in a living space, or stack with pot plants in the garden.

## About the Designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with MENU, helping to drive the evolution of the brand and its product offerings. Norm Architects' name reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce design that unites good materials and craftsmanship, while embodying beauty, traditions, history and, most importantly, timeless simplicity, where there is nothing more to add or take away.
