

INSTRUCTION MANUAL

COPENHAGUE TABLE CPH190

By Ronan & Erwan Bouroullec

HAY

INTRODUCTION

Copenhagen is a furniture series designed by Ronan and Erwan Bouroullec designed especially for the University of Copenhagen in 2013. In addition to a homely and welcoming expression, functionality, durability and ease of cleaning were important design requirements for the university. The Bouroullec brothers approached the task by merging design history with modern technology in an idiom with a strong and independent appearance in a broad and versatile series that embraces both public and private environments.

CARE AND MAINTENANCE

CAUTION

With a little care you can prolong the life of your furniture. Follow the instructions for the materials of your specific product to make sure that it stays in the best shape for as long as possible.

The information below is only intended as a general guideline. For more information on how to remove specific stains, please enquire where you bought the furniture.

- Always remove stains quickly before they can do any permanent damage to the furniture.
- Avoid placing the table in direct sunlight or near a heat source to reduce changes. As wood is a natural material, it will change in colour and will patinate over time.
- When you move your furniture, make sure you lift it rather than pulling or pushing it to avoid damaging the floor, legs and mountings.
- Tighten up the screws after one to two months' use and whenever required.
- Avoid improper use such as putting your feet on the table or standing on it.
- Use coasters under damp, hot or coloured objects to avoid permanent stains.
- Avoid partially covering the surface, for example with tablecloths, or place mats, as colour variances may appear.
- Be careful not to scratch or damage the surface with sharp objects.

LACQUERED OR STAINED WOOD

- Wipe with a clean cloth wrung in water or in a solution of water and a neutral detergent. Remove soap residue immediately using a clean, dry cloth.
- If the surface is scratched or appears matt, use a care product especially suited to lacquered or stained wood.
- Avoid using detergents containing silicone, as they seal the stain in and make subsequent repairs more difficult.
- Avoid using scouring cream or scouring pads, as they may scratch the surface.

PARTS

A x 1

B x 2

C x 2

D x 2

E x 4

F x 4

Glue

Allen key

1.

While assembling, keep the table inside the cardboard box with foam edge in order to protect the tabletop from scratches etc. Make sure that all parts are included.

2.

Add glue to the marked surfaces and dowels.

3.

Position parts B and C as indicated.

4.

Place part D in the middle of the hole.

5.

Insert parts E in the holes.

6.

Tighten both E parts with the Allen key. Before use, leave the table to dry for 60 minutes, and remove any remaining glue. Repeat steps 2 - 6 at the other end of the table.

7.

Turn the table over (2 persons recommended).

5.
