

oda

by Sebastian Herkner
TABLE AND FLOOR LAMPS

A slender base hugs a bulbous form. An industrial motif softened by the gentle curves of handblown glass. The oda series of table and floor lights reference the stilted forms of silos, furnaces and water towers of a bygone age. A warm glow brings this industrially charged aesthetic into a softer interior setting.

YEAR OF DESIGN

2014

MATERIAL

handblown glass, coloured and steel

DIMENSIONS (mm)

ODA SMALL
Ø240 × 450 H

ODA MEDIUM
Ø450 × 850 H

ODA BIG
Ø450 × 1400 H

PROCESS

Each piece is created from coloured handblown glass. The frame is constructed in either steel; powder coated or chrome plated, or brass. Bubbles, streaks and other variations in size and colour are part of the production process, and not defects of the design or production.

CARE INSTRUCTIONS

Regular cleaning and maintenance is important in order to keep your pulpo product looking its best and to prolong its life. Always remove any kind of dirt as soon as possible. We recommend that you first test a small, invisible area to ensure that no colour change or damage arises to the product. Do not use materials for maintenance that contain abrasive agents or are basic, acid or organic.

METAL CLEANING

STEEL POWDER COATED, STEEL CHROME PLATED AND BRASS

For dusting and light cleaning of the base, use a soft and dry cloth. For further cleaning, gently wipe the surface with a soft cloth wrung in clean water and a neutral detergent or soap flakes of good quality. Dry immediately afterwards with a soft, dry and clean cloth. For the best maintenance of the product, care for it regularly, protect it against direct sunlight and heat, and try to keep it away from moisture, grease, and other dirt. Furthermore, protect the surfaces against sharp objects and other that might scratch. Please note that brass may develop a patina over time. The darkening of the surface is due to oxidation. If left untreated, the surface will eventually turn entirely darker.

GLASS CLEANING

For dusting and light cleaning of glass use a soft, dry cloth. For further cleaning gently wipe the surface with a soft cloth wrung in clean water and a non-abrasive commercial glass cleaner. Dry immediately afterwards with a soft, dry and clean cloth. Please note that bubbles, streaks and other variations in size and colour are part of the production process, and not defects of the design or production of handmade glass.
