Bristol

Designer: Frandsen Design Studio

Concrete pendant and table lamp.

The Bristol table lamp is contemporary and raw, and the light source completes the look. You should therefore choose your light source with care.

The table lamp does not take up much space, but it produces striking light. Place it on your windowsill or on a shelf – or use it as a book end for your favorite novels. It is very compact, so is highly practical.

The pendant is extremely attractive when hung in a cluster, perhaps at different heights. Hang the Bristol pendant above your dining table, in the kitchen or in a corner beside the sofa. The pendant comes with a black fabric cord for mounting.
