

STORM SERIES

by Rune Krøjgaard & Knut Bendik Humlevik

The Storm Series is an outdoor lounge collection consisting of a pouf and lounge chairs. The collection is suitable for various outdoor lounge areas, especially around swimming pools and on terraces, which require strong and weather resistant furniture.

Simplicity is the key element in the Storm Series design and has a soft and inviting feel, yet characteristically Scandinavian.

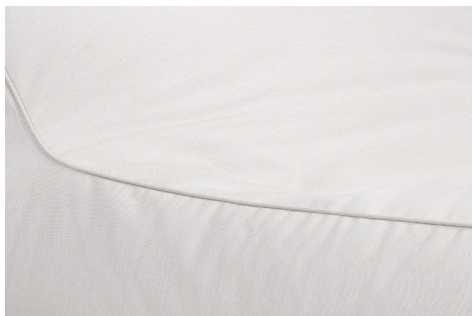

The Storm Series is made of Sunbrella, the ultimate outdoor fabric. Its acrylic fibers and the unique weaving technique gives it a velvety feel and water repellent feature. The fabric is protected by an invisible shield around each of the fibers to keep the fabric dry and clean. The Sunproof fabric is 100% recyclable and friendly to the environment due to the dye bath process used. It applies excellent ultraviolet blocking, which protects the polymer backbone of the fabric from the effects of UV radiation. Therefore Sunbrella has as an outdoor fabric proven to have a strong ability to withstand the effects of prolonged exposure to sunlight, wind, rain and humidity.
