

FIBER BARSTOOL – WOOD BASE W/BACK

FURNITURE / LIGHTING / ACCESSORIES

PRODUCT FACT SHEET

ISKOS-BERLIN ON THE DESIGN Fiber Bar Stool is the elevated extension to the Fiber Chair family. Retaining the essence of the Fiber series – a clear sculptural language that refuses to compromise on comfort - the bar stool is a versatile and conforming companion for any setting. We wanted to create a harmonious and friendly piece with soft shapes that would fit a café setting as much as a bar or kitchen counter. The stool's seat contains a wood fiber composite, giving the chair its distinctive visual and tactile texture while keeping it recyclable.

PROCESS The wood fiber and plastic blend is injected into the mold, forming the stool's shell. Wood base is cut from solid oak wood and wet lacquered.
