

An essential lamp which is characterised by the “subtle interpretations of the theme”. Made in transparent methacrylate in all the colours of the rainbow, the cover is not perfectly hemispherical but the cut-off is underneath the height of the diameter to collect the most light. What’s more, the special transparency of the material and the sheen of the colours bring to mind a soap bubble, iridescent with reflections of light. They are packaged singly, but also come in compositions that enhance their delicate chromatic variations.
