## HERE'S THE STORY

*Candyofnie is originated from a childish simple principle: threading beads! Creating something with Fatboys' candy is just as playful and addictive as working with beads. However, this time the final product is not jewellery, but a beautiful and surprising lamp!*

## ABOUT CANDYOFNIE

*With 8 different shapes available in 11 colours, this lamp offers endless combinations. Endless means something like a trillion options. (This is NOT a joke.)*

*Create your own lamp by sewing the candy shades together with an oversized sewing needle.*

*Use your remote with controlable dimmer to set the mood.*

*You can place the Fatboy logo on the wire using the clip-on mechanism. It's okay if you don't, you're still a Fatboy friend!*

# CANDYOFNIE

Add shapes to create your very own unique lamp

And this is just one of 3.637.682.549.757.080 possibilities.

**COLLECT THEM ALL!**
