

Illuminating tables for glamorous effect

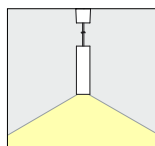

Pendant luminaires for hotels, bars and restaurants

The Starpoint pendant luminaire combines the design principles of "ambient luminescence" and "play of brilliants" coined by Richard Kelly. The light beam, directed downwards, presents cuisine and cocktails on the tables and counters in the perfect light. The luminaire cover with its strikingly illuminated ring creates an effective eye-catcher. The translucent element, which is visible only when illuminated, makes for a subtle dec-

orative detail in the room – ideal for hotels, bars and restaurants. A chrome version adds a touch of mid-century glamour and lends itself to combination with rough materials such as wood or natural stone, thereby creating a compelling contrast.

Accentuation
Emphasis of objects produced by a wide light beam.

Pendant downlights
Wide beam, rotationally symmetrical light distribution for the illumination of large areas from a short distance.

LED module
8W
600lm - 830lm
Light distribution: Extra wide flood

Structure and characteristics

The features described here are typical of products in this range. Special versions may offer additional or varying features. A comprehensive description of the features of individual products can be found on our website. The direct links for quick access always take the same form:

www.erco.com/<article number>

Detailed information on the features is provided in the Program from page 432.

1 ERCO lens system

- Made of optical polymer
- Light distribution: extra wide flood

2 ERCO LED module

- High-power LEDs on metal-core PCB
- Light colours: warm white or neutral white

3 Translucent ring

- Optical cut-off 30°
- Polymer, clear, outside mirror-finish vaporised

or

Anti-glare cone

- Optical cut-off 30°
- Polymer, black

4 Cylinder

- White (RAL9002), black or chrome
- Aluminium profile, powder-coated or chrome-plated

5 Control gear:

- Phase dimmable
- Dimming with external dimmers possible (trailing edge)

6 ERCO 3-circuit adapter or ceiling fixture with canopy

- White or black
- Connection cable, translucent, with strain relief

Special characteristics

Small luminaire dimensions

Decorative luminaire trim

ERCO high-power LEDs

Efficient lens system

Optical cut-off 30°

Different light colours

Excellent thermal management

EMC-optimised

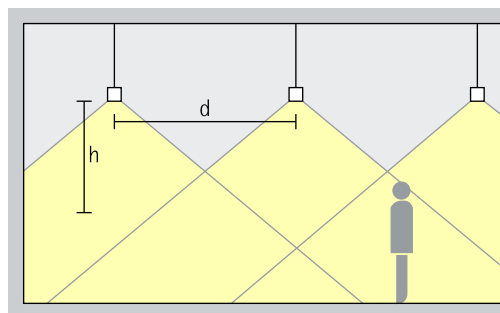

Different housing colours

Phase dimmable

Starpoint Pendant luminaires – Luminaire arrangement

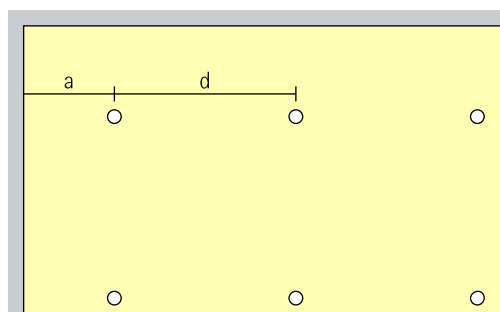

Pendant downlights Extra wide flood

Accentuation

For uniform ambient lighting, the spacing (d) between two Starpoint pendant downlights may be up to approximately 1.25 times the height (h) of the luminaire above the working plane.

Arrangement: $d \leq 1.25 \times h$

The wall offset should be half the luminaire spacing.

Arrangement: $a = d / 2$
