Sahara Wall

wall lamp

The Sahara Wall is made of treated crushed silk, resistant to mold and fire, laid on a metal structure. The Sahara Wall is Supplied with 250 cm -98" black cord and a foot switch.

Special resin coating is available on request, highly recommended for pieces intended for public spaces. This coating does not change the look of the fabric, but rather strengthens the texture.

Silk colors available: Cream, Smoke, Sky, Grass, Dark, Flame, Gold, Red, Orange.

220 V. Model:

Cool or Warm White, Compact Fluorescent EL bulbs.
7 x E27 socket, 15W Max. CE Classified.

110 V. Model:

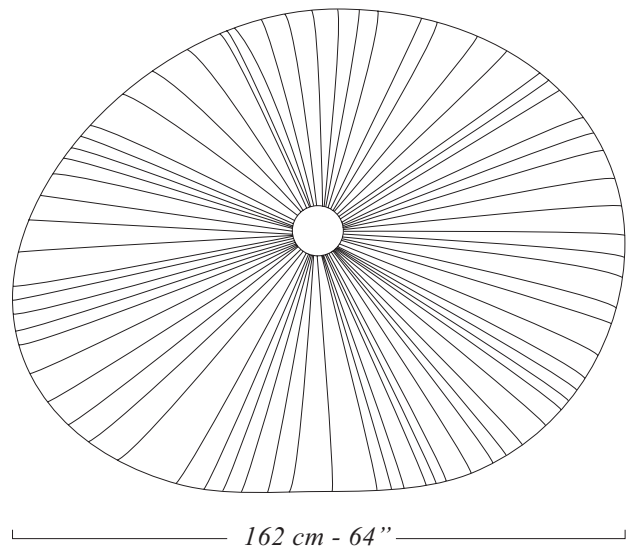

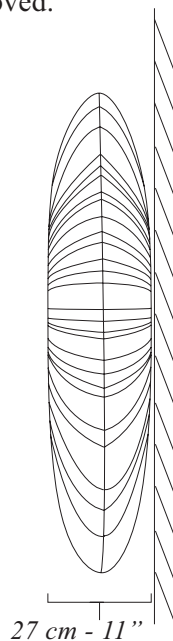

Cool or Warm White, Compact Fluorescent EL bulbs.
7 x E26 socket, 15W Max. UL approved.

Package Volume:

0.87 Cubic Meter / 31 Cubic Feet

Measures are provided in centimeters & inches, within + - 3% tolerance. Please allow for color discrepancies between the photos and the actual piece. The silk is hand dyed, thus its colors may slightly vary between batches.

It is important to be consistent and use all light bulbs of the same color. Specially when using compact fluorescent bulbs, the color of the bulb will define the color of the silk as well. We recommend the use of **warm white** bulbs for the creation of intimate, natural atmosphere, or cool white, for a more Spartan contemporary appeal.
