PRODUCT INFO

FLYING SHELF SPHERE

FLYING SHELF CYLINDER

# FLYING SHELVES

A shelf can be more than storage; the Flying Shelf of powder coated metal with a geometry-inspired mounting is a little piece of art. It's a display of balance and geometry with distinctive elements, each playing their role in the design. The geometric pieces are both the mounting and vital parts of the seemingly flying expression. They come in brass and chrome, both made of plated metal.

## PRODUCT INFO

Country of origin:	China	Recommended retail price / Flying Shelf Sphere			
Dimensions / Flying Shelf Sphere:	Lenght: 60	DKK	1.299.00
